

## THOUGHT FILIPINOS WILL ACCEPT TERMS

DEPARTMENTS AT WASHINGTON FEEL CONFIDENT.

In the Event of Accepting Terms of United States Commissioners the War Would Promptly End - No Reports, Even of a Skirmish Received From Otis Today.

Washington, April 4.—[Special]—At all the departments here, hope is expressed that the Filipinos will accept the terms offered in the American proclamation made public by the United States commissioners. In that event, war would probably end.

As no reports, even of a skirmish, have been received from General Otis today, the inference here is that the Filipinos are remaining under cover and either are afraid to put up another fight or else they are waiting to enter upon a new style of bushwhacking warfare.

Manila, April 4.—The Philippine commission, which is composed of Col. Charles Denby, Prof. J. G. Schurman of Cornell university and Prof. Dear C. Worcester, has issued a proclamation to the residents of the island, calling upon them to lay down their arms and follow peaceful avocations. An extract from the proclamation is as follows:

"In the meantime the attention of the Philippine people is invited to certain regulative principles by which the United States will be guided in its relations with them. The following are deemed of cardinal importance:

"1. The supremacy of the United States must and will be enforced throughout every part of the archipelago, and those who resist it can accomplish no end other than their own ruin.

"2. The most ample liberty of self-government will be granted to the Philippine people which is reconcilable with the maintenance of wise, just, stable, effective and economical administration of public affairs and compatible with the sovereign and international rights and obligations of the United States.

"3. The civil rights of the Philippine people will be guaranteed and protected to the fullest extent, religious freedom assured and all persons shall have an equal standing before the law.

"4. Honor, justice and friendship forbid the use of the Philippine people or islands as an object or means of exploitation. The purpose of the American government is the welfare and advancement of the Philippine people."

## REBELS RACE RUN.

Gen. Otis Sends Cheering News from the Philippines.

Washington April 4.—The following cablegram was received at the war department Monday morning:

"Manila, April 3, 1899.—Adjutant-General, Washington: Present indications denote insurgent government in perilous condition, its army defeated, discouraged and scattered.

"Insurgents returning to their homes in cities and villages between here and points north of Malolos which our reconnoitering parties have reached, and desire protection of Americans.

"News from Visayan island more encouraging every day. OTIS."

Officials are greatly pleased at this message. They have such confidence in the judgment of Gen. Otis that they do not think he would send such cheering news without the best of foundation.

There have been many newspaper deductions to a similar effect, but it is another matter to have the general in command of the army send assurances that the insurrection is broken down.

Gen. Otis refers to reconnoitering parties and to the return of Filipinos to their old homes within the lines of the American army.

It is presumed his information comes from these sources, and as he is not given to making statements lightly, Washington is inclined to regard his dispatch as the best news since the beginning of the campaign, Feb. 4.

It is argued at the department that the Filipinos never have been used to the kind of warfare the Americans have given them, and for that reason they are now aware that it will be impossible for them to accomplish anything by fighting.

While there is a disappointment because the movement for the capture of a large force of the Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place, has had a very discouraging effect upon the natives who have been following Aguinaldo. It is believed that desertions will soon deplete the army of Aguinaldo to little or nothing.

Acting Secretary Melklejohn made a statement of the receipts in the Philippine islands since the Americans have been in charge. The Americans took possession Aug. 13, 1898. The receipts to the 1st of January were \$1,819,813. The receipts for January, February and March, so far as reported, were \$1,168,666, of which amount \$40,000 is from Iloilo and \$40,000 from Cebu. It is believed that the total showing of \$2,988,480 would have been much larger.

had all the ports of the islands open in possession of the United States.

Otis Congratulated by Dewey. Manila, April 4.—The natives continue returning to their homes. They are coming in all along the American lines and many of them, seeing the promises of good treatment are fulfilled, are inducing their relatives to return to their homes.

Maj.-Gen. Elwell S. Otis, commander of the American military forces, has received the following message: "Heartly congratulations on the most magnificent work of the army. "DEWEY."

## Hope for Speedy Peace.

The United States Philippine commission, the last member of that body, Col. Charles Denby, former minister to China, having arrived here, will discuss the situation. The commissioners are hopeful of a speedy restoration of peace, believing hostilities will soon be confined to the habitual revolutionists.

## Brig.-Gen. Otis Comes Home.

Brig.-Gen. Harrison Gray Otis sailed for home on board the United States transport Sherman on Monday. He believes the insurrection has received its death blow.

The Sherman also has on board the sons of Col. John Hay, secretary of state, and Senator Hale of Maine, who have witnessed much of the fighting with the army, and the bodies of Col. Harry C. Egbert of the Twenty-second infantry, killed on March 26, and other officers who have recently fallen in battle.

Gen. Wheaton has assumed command of the brigade lately commanded by Gen. Otis. The Third and Twenty-second regiments of Gen. Wheaton's command are returning to this city.

New York, April 4.—[Special]—Virginia Fair, daughter of the late Senator Fair, of California, was married at noon today to William K. Vanderbilt at the residence of the bride's sister, Mrs. Herman Delrich.

A home wedding was made necessary by the fact that the contracting couple were of different religious faiths.

A miniature cathedral and altar were erected in the Delrich ball room and to add to the effect, candles were burned and two choir boys carried incense before the bride and groom.

Forty-eight thousand Dewey roses were used in the decorations.

The ceremony was performed by Rev. Father Murphy, the guide and confessor of the bride since childhood.

Members of the Vanderbilt, Fair, Oelrichs, Whitney, Mills, Clews, and Rockefeller families were present.

After the ceremony an elaborate wedding breakfast was served.

Where their honeymoon will be passed is still a secret except to a few.

## MAY BEGIN SUIT FOR DAMAGES

Preliminary Notices Have Been Filed With City Clerk Badger.

Preliminary notices that may result in three more damage suits have been filed with City Clerk Badger. The claimants are Hannah A. Spaulding, William S. Spaulding and Lydia Peters. The notices were drawn by Attorney E. D. McGowan and do not indicate formal commencement of suit. They merely comply with the statute that calls for notice of an accident within fifteen days in case there is any expectation of seeking damages. A year is now given to decide whether suit will be commenced.

Mrs. Peters and Mrs. Spaulding claim that they fell on the concrete walk in front of the premises of the late Richard Wiggins, 211 North Jackson street. The accident happened March 19, 1899, at a point where the walk from the house joins the front walk.

Mrs. Spaulding claims that her left arm was broken by the fall and that her wrist was put out of joint and she was also otherwise injured.

## Lovely Prison of Drytan.

Devil's Island derives its name; not from the badness of its climate or other objectionable conditions, but from the circumstance that it once formed the prison of a convict so wildly depraved as to have been called by his jailers "the devil." Consequently it is the island of this devil, not of the devil, and as a place of habitation it seems to be less bad than it has been painted. A political prisoner, Henri Chabannes, wrote a book called "An Escape From the Devil's Island," in which he gives an enthusiastic account of its natural attractions, one of his pleasures, he says, having been to listen to the cooing of the turtle doves among the pine trees of the settlement.

## China's Curse.

In connection with the clamor for the "open-door" policy in China, the observations of a missionary who has lately come home from that country are interesting. In an address at Boston Miss Jessie Ackerman said that all attempts at missionary work in China would be fruitless until the opium business had been suppressed. "The fault," she said, "is directly traceable to England. The Chinese people do not want the opium, but it is forced upon them by a civilized country like England. England profits by the consumption of this drug in China \$25,000,000 in revenue each year. All the opium used is the product of India. The use of opium in China has already been the cause of two wars there, but the weaker side, which favored the importation of the drug, won on account of the support of England. Two hundred million Chinese smoke opium at the present time, and more than 1,000,000 die from the effects of it each year."

## CLINTON CAUCUSES WELL ATTENDED

HELD IN THAT VILLAGE LAST  
MONDAY EVENING.

Two Tickets Placed In the Field—  
Warm Time At the Township Polls  
—Split in the Ranks of the Republi-  
cans—20,000 Brook Trout Received  
From State Fish Hatcheries.

Clinton, April 4.—There was a good attendance at the caucuses held in the village Friday evening. Some eighty were present at the temperance caucus, and about thirty at the village caucus. The nominations were easily made in both caucuses the tickets going through about as they were "slated." In the temperance caucus the voting was by ballot. In the village caucus the nominations were made by acclamation, which took but a few minutes to accomplish. The result was as follows:

Temperance Ticket: President—A. V. Peters. Trustee—J. Q. Simons, Geo. Snyder, V. E. Winegar, W. H. Thom, B. B. Markle, C. W. Collier. Supervisor—R. W. Cheever. Assessor—Charles Lee. Clerk—Winton Springer. Treasurer—A. W. Strang. Justice of the Peace—F. A. Ames. Marshal—A. Bogardus. Constable—F. Bradley.

Village Ticket: President—A. W. Shattuck. Trustees—Parley Isham, C. P. Himmam, A. Olmstead, A. Hasse, Ed. Watts, M. M. Murray. Supervisor—H. Conley. Assessor—L. W. Sprague. Clerk—W. A. Bird. Treasurer—D. Loomis. Justice of the Peace—H. N. Cronk. Marshal—G. W. Earle. Constable—C. L. Tuttle.

There was a warm time at the township polls Tuesday, were two straight republican tickets were in the field from which voters took their choice. The split in the ranks of the republicans is due to certain irregularities which it is claimed occurred at the regular caucus and caused much dissatisfaction at the time. Later they deserted, got together and made a ticket. The democrats in the town, (who by the way have never got up a ticket of their own) were greatly incensed over the fact that at the regular caucus they were requested not to vote.

The nominations for town officers at the regular caucus were as follows, over 100 votes being cast: Supervisors, Henry Nutein, chairman; W. H. Northrup, F. B. Rogers. Clerk, Hiram Cooper. Treasurer, A. Lewis. Assessor, T. Nelson. Commissioner W. H. Bunker.

Milton, Wis., April 4, 1899.

The Seventh-day Baptist church was decorated last Saturday morning with the perfume of beautiful flowers sent by Dr. E. S. Bailey, of Chicago, in remembrance of his parents. The week previous, the memory of the former pastor, Rev. E. M. Dunn, was similarly remembered by Mrs. Dunn.

Mrs. John Jennings was seriously injured Monday afternoon. The road on which herself and husband were driving in the town of Harmsny had been washed out by the spring thaw causing the wagon wheel to drop down into the rut and throwing Mrs. Jennings out.

Miss Carrie Gray, of Beloit, is enjoying a vacation from her labors in the city schools, with her mother and sister. Rev. Dr. Platts was unable to preach Saturday morning and President Whitford officiated. Dr. Platts is better, but is not feeling well yet by any means.

George Bacon and wife returned from their Madison visit Monday.

La Prairie, April 4.—Ralph Howard and family were very pleasantly surprised last Wednesday evening. Social games and an abundance of dainty refreshments were enjoyed by all present. Farmers who have their tobacco still hanging in the shed and plowing to do will be quite apt to get in a hurry some day or else let it hang over until next season. U. E. Gleason made a flying trip to Sharon last week. Bert Van Gilder, of Racine, is still confined to his bed. Hiram Procter is cutting his summer wood, assisted by Fred Ulling. G. A number of our young people attended the calico hop in Janesville and report a fine time. Spring work will be rather late this year, especially among those who did not plow any last fall. A new milkman on the road between the Grange hall and creamery. April fool's day and Easter passed off agreeably.

## REMAINS TAKEN TO SOUTH TURTLE

Former Resident Passed Away At Her Home In Beloit.

South Turtle, April 4.—Mrs. Lottie Murray Weirick, who left her father's home a bride last December and was brought back to its sheltering roof a corpse last Friday, and the funeral was held Sunday afternoon. Lottie was born and brought up here, graduated from our district school and taught here three years. After her marriage, she and her husband moved to Beloit. The ever ready grip made its appearance, both Mr. and Mrs. Weirick taking their turns at it. With Mrs. Weirick, it took the form of pleurisy and later of rheumatism fever, to which brought the bride of only three months to her final rest. The sympathy of our entire people go out to the bereaved parents and the husband in this their hour of great sorrow.

## McKINLEY TIMES AT FOOTVILLE

School Opens Again—H. S. Stevens Disposes of Residence Property.

Footville, Wis., April 4.—Strong & Owen, assisted by Fred Pankherst, are busy unloading and delivering lumber. May the good business go on. It is genuine McKinley times at the lumber yard. The village school is not in session this week, owing to the spreading of measles. New cases are Cora Harper, John Evans, Lloyd Williams and Clarence Owen. H. S. Stevens has sold his residence in this village to Robert Reemer, for \$1,500. We are glad to see transfers, but we do not like to see such fine people as Mr. and Mrs. Stevens leave our vicinity, and we are in hopes we have found grace in their sights so they will remain in our midst for the present. Mr. and Mrs. Stevens will live in part of Mrs. Andrew Bailey's house. A little more spring like; snow and ice gradually going, with

In many important particulars, Hood's Sarsaparilla is Peculiar to itself. It is a medicine as far ahead of the usual preparation as the electric light is ahead of the tallow dip. The ingredients used in making it are selected with the very greatest care, and are gathered for us at the time they possess the greatest remedial value. The peculiar action of Hood's Sarsaparilla, is unknown to any other, thus making Hood's Sarsaparilla peculiar to itself. The value of this peculiarity is best shown by actual results. And Hood's Sarsaparilla has a record of cures unequalled in medical history. Has more of them, greater successes in serious cases, better general tone, unsolicited testimonials than any other medicine in existence. It cures extreme cases of blood diseases, humors, scrofula, salt rheum, rheumatism, catarrh, and all other troubles traceable to impure or vitiated blood. Possessing great stomach-toning qualities, it cures indigestion, dyspepsia, catarrh of the stomach, etc. It builds up the nerves, renewing and reviving brain, nerve and mental strength and curing nervous prostration. As a natural tonic, it strengthens the whole system and cures that tired feeling. It has done all this for others and what it does for one, it will do for you. All we ask for Hood's Sarsaparilla, is a necessity, an opportunity and a fair trial. Be sure to get Hood's. Sold by druggists. Prepared only by C. I. Hood & Co., Lowell, Mass. It never disappoints.

Let Us Overhaul Your Bath Room.

A great many bath tubs in this city were put in years ago. Likewise water closets. They are foul, ill-smelling and unwholesome and a menace to health. Bath tubs, were boxed in and pipes out of sight, often leaking gas and accumulating dirt. You should throw these out and put in a bright porcelain tub and a syphon water closet with exposed nickel water pipes. You will take more comfort than you can imagine. The price for this kind of this kind of work has got down to reasonable figures now. If you think of doing anything to your bath room. We will be glad to give you an estimate of the cost and other information and help which our experience would suggest.

DECISION UPHOLDS WAR TAX

Applies to Board of Trade and Stockyards Transactions.

SUPREME COURT UNANIMOUS.

Opinion Handed Down at Washington by Justice Peckham—Suits Brought by Chicago Brokers to Test the Validity of the War Revenue Act.

Washington, April 4.—The Federal Supreme court Monday rendered a decision in the several cases brought by Chicago brokers to test the validity of that provision of the war revenue act which imposes a stamp tax on board of trade contracts for future delivery. The court sustains the law and holds that the contentions of the brokers are without merit. The decision is sweeping and conclusive. The litigants—James Nicol, Edwin Skillen and George R. Nichols—will have to pay their fines and comply with the requirements of the law or go to jail. The decision will have an important effect on scalping operations not only on the Chicago board of trade, but on all commercial and financial exchanges. It means a tax on that class of trade of many thousands of dollars a month for Chicago alone. The opinion of the court was handed down by Justice Peckham; there was no dissent. In another case a similar opinion was rendered with regard to taxes upon transactions at stockyards.

MICHIGAN STATE ELECTIONS.

Judge Grant Wins in Spite of the Strong Opposition.

Detroit, Mich., April 4.—A light vote was cast throughout the state Monday, but from the returns so far received it is evident that E. B. Grant has been elected justice of the supreme court by a majority of 30,000, while for regents of the state university, Eli R. Sutton (Progressive candidate) and Henry S. Dean (reps.) were elected by about 26,000 to 28,000 majority. In 36 judicial districts and 100 city elections the indications are that the republicans are generally victorious, local issues prevailing. There are, however, several exceptions as to mayor. In Wayne county the election of circuit judges was about a stand-off. Judges Carpenter, Hosmer, Frazier and Donovan were re-elected, the first being a democrat and the last three republicans. The new judge is James R. Pound, a democrat. In the city of Detroit Grant was badly cut, but the state carried him through.

To Solve the Race Problem.

Indianapolis, Ind., April 4.—The 100 ministers of this city who compose the Ministers' Interdenominational association discussed the negro question at their monthly meeting Monday. Rev. James Cumming Smith, pastor of the Tabernacle Presbyterian church, declared that after having made a study of the question he was convinced that intermarriage between negroes and whites would eventually be the solution of the problem. He predicted that sooner or later the marriage of whites and negroes would be indorsed in this country. The views of the minister brought about a great deal of discussion.

The dining room of The Mrs. Clark Co., 151-153 Wabash Ave., Chicago, is the best appointed and most modern restaurant in the city. It has been recently refitted, improved and enlarged and has an elaborate menu at moderate prices. It caters to those who demand the best.

The restaurant on the 7th floor of the Association building in La Salle street is also run by this company and is equally inviting and attractive.

Quay to Stay in the Field.

Harrisburg, Pa., April 4.—Senator Magee of Pittsburg returned from Philadelphia and is said to be ready to desert Quay. Senator Boise Penrose said that Senator Quay agrees with his friends that as the nominee of the republican party for United States senator it is his duty to remain in the field to the finish in the interest of the integrity of the republican organization of Pennsylvania.

"After five days of a severe cold three Orangeine powders cured me."

Power Military Districts.

Havana, April 4.—Word has been passed around the island that the seven military departments are soon to be consolidated into four—the occidental, embracing Pinar del Rio and the city and province of Havana; the central, embracing Matanzas and Santa Clara; the Camaguey, consisting of Porto Principe; and the oriental, consisting of Santiago.

"Grip" has no terrors for those who know "Orangeine." Relieves and cures.

Reports Alger Will Retire.

Chicago Live Stock Market.

Chicago, April 3.—This week opens with receipts of about the volume anticipated all around. Cattle trade showed strength from the start and most of the useful beef grades sold 10c above closing values last week, readily at that. Values for hogs were a shade lower than Saturday where any change could be noted, but the average stood only a mere fraction lower. Sheep sold quite readily at former prices, but bids for lambs ranged 10@15c lower and many had to sell at 10c decline. Receipts were estimated at 14,500 cattle, 30,000 hogs and 18,000 sheep. Most of the useful offerings in each branch found sale in good season, but the tone of the late trade in hogs was quite weak.

DEMOCRATIC CONVENTION.

Iowa Followers of Jefferson to Meet in Des Moines Aug. 10.

Des Moines, Iowa, April 4.—The democratic state central committee issued a call for the party's state convention Aug. 16 in Des Moines. Chairman Hancock at once telegraphed here that the republican state convention would be held Aug. 2, instead of Aug. 9.

The democratic call is to "all voters who believe in the principles advocated by the democratic party and who are in favor of an economical and constitutional government." This is understood to limit the representation to democrats exclusively and to exclude populists and free-silver republicans. Not a word is said in the call about silver, which is a surprise to the silver element and is taken by the gold democrats as an invitation to them to enter the convention. The talk is strong, however, about adopting a platform indorsing the Chicago platform in bulk, without reference to the silver ratio.

Denial from Senator Hanna.

Washington, April 4.—In a note to the Associated Press from Thomasville, Ga., Senator Mark Hanna says: "I see in the newspaper reports that one Major Lee has attempted to drag my name into the case by questions which conveyed the impression that I was present at some conference where beef contracts were discussed. I wish to say that I never had anything to do with any army contract, nor even exchanged a word with any official of the war department on that subject. I make this statement in order that it may have the same publicity as was given to the contemptible insinuations of this man Lee."

Tramps Explode Powder Car.

Everett, Wash., April 4.—A powder car belonging to a Great Northern freight train blew up, killing one tramp and wounding two others who were riding in an adjoining car. In addition to the powder car two cars containing mixed freight were burned. The injured men gave their names as Sylvester Pagan and Charles Flebotte. The name of the dead man was unknown to them. It is thought that the car in which the tramps were riding was set on fire by them and the heat exploded the powder car.

The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief, and procuring them at the Peoples drug store, I had her use the remedy. It did for her all that could be expected and did her a great deal of good. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

## FAVORS WHEELER'S BILL

The Beloit Free Press gives Assemblyman Wheeler's damage suit bill the following strong endorsement:

"Assemblyman Wheeler has a bill before the legislature which should be unanimously passed. It is a bill to discourage the 'damage suit industry' in other words, to protect municipal corporations from being mulcted in heavy sums for injuries alleged to have been received from defective sidewalks, etc."

"This industry," bringing suits for damages, has grown to a large proportion of late years, for no amount of precaution can keep sidewalks in such shape as to prevent such people from falling down who see the possibility of realizing the lump sum of \$5,000 to 'divvy' with their lawyers. Not all persons by any means would strain an ankle or break an arm for \$5,000, but the temptation to do so should be removed from those whose natures would lead them to fall by the wayside if they could see good money in the fall tho' stone blind to the alleged defect. The statute should be repealed even at the expense of decreasing the volume of business in the courts."

Fifteen prominent citizens of Lake City, S. C., will be on trial in the United States circuit court within a few days to answer a charge of having lynched Postmaster Frazer B. Baker, more than a year ago. Besides killing the postmaster who was a negro, the alleged lynchers will have to answer for killing Baker's infant child, and for burning the Lake City postoffice with all its effects. It is said here that other arrests will be made before the case is taken up. The indictment will go to the grand jury and the hearing will begin at once. Eighty witnesses for the government have been summoned and there is a great array of witnesses for the defense.

Charles M. Warren, the republican candidate for alderman in the Fifth ward, has made a spirited canvass, and the chances of his election are very bright. Mr. Warren is an unusually popular man, and has had many promises of support. So when the votes are counted in the Fifth tonight, there is likely to be a "surprise party."

That Chairman Heimstreer, of the republican city committee, had arranged all details with care was plainly shown by the manner in which the republican campaign was waged today.

W. H. H. MacLone has made a strong run in the Fourth ward, and the figures are likely to tell a tale somewhat out of the ordinary this time.

The Gazette office will be open this evening and the election returns will be read as fast as received.

There was a notable absence of "bloodshed and rioting at the polls" today.

And the news from Chicago will also be awaited with some interest.

The Samoan trouble has again flared out, it seems.

Of course you can forecast the result.

Hail the victor—with a big "V" of course.

## HIS MAIDEN SPEECH.

House Laughed at Wonderful Pittsburg and the Amendment Won.

William Harrison Graham, who succeeded Governor William A. Stone of Pennsylvania in the house of representatives, made his maiden speech recently, and it was pronounced a roaring success. The river and harbor bill was being considered, and when the proper time came Mr. Graham stood up to defend the Keystone state. He wanted incorporated in the bill a paragraph authorizing a survey for improvements on the Youghiogheny river, which is near Pittsburg and in Allegheny county. Mr. Graham is possessed of a sharp, piercing, penetrating voice, and it stood him well in hand while explaining the claims of Pittsburg and Allegheny county in congress. Mr. Graham modestly pronounced Pittsburg the greatest city on earth. It boasted a larger railway tonnage than New York, Chicago and Boston combined. It produced more bottles, more cork to cork the bottles, than any city on earth. It produced more steel than any other city in the world, and so on and on the speaker lauded the importance of Pittsburg until some one on the minority side was constrained to ask where was this wonderful city, the like of which he did not know existed on this side of the world. Straightway the house yielded itself to uproar, but the speaker condemned the ignorance of the interrupter and proceeded. Pittsburg turned more revenue into the United States treasury than any other city of its size in the union, and what wonderful things Pittsburg had not done or was going to do the speaker was prevented from exploiting by the fun the house was having with him. Staid members joined in the levity, and all sorts of pertinent questions were directed at Mr. Graham, but he ignored them and continued, and his time was extended that the house might still further be amused. Then came the viva-voce vote on his amendment, which was declared lost by the speaker. Mr. Graham had given his effort up for lost, when some one urged him to demand a division, which he did. The house yielded without dissent, even though the motion had been declared defeated in default of protest from its sponsor. Then the funniest thing of all happened. The motion on a rising vote was agreed to with but one negative figure standing on the minority side. It was a revelation to the gentleman from Pennsylvania, and he was delighted to have learned a new parliamentary trick.

## END OF Y. M. C. A. COURSE

Final Entertainment Was a Gymnasium Exhibition.

The first annual gymnasium exhibition as well as the closing entertainment of the Y. M. C. A. lecture course was given at the Y. M. C. A. auditorium last evening. The exhibition was in charge of Physical Director J. F. Rudolph, assisted by Mrs. C. L. Clark and Miss Elva Crawford, piano accompanists; William Harvey, zither soloist, and the Y. M. C. A. band.

The program opened with an overture by the band. After which the members of the juniors gave an exhibition of free work and dumb bell exercises. An exhibition of Swedish gymnastics was then given by the seniors. After another selection by the band the members of the intermediate class and the juniors gave an exhibition on the apparatus, horse and mat, which preceded a "go-as-you-please" by the seniors, intermediates and juniors.

The zither solo by William Harvey was a double number, "Schottland's Traume" and "Song Without Words" was enjoyed.

A dumb bell drill by the intermediates was followed by an exhibition on the apparatus, parallel bars and horse by the seniors, who later gave a fine exhibition of pyramids.

The program concluded with a selection by the band.

## THE COUNTY COURT DECIDES BELL CASE

### PETITION FOR CONSTRUCTION OF THE WILL.

First Scotch Presbyterian Church of Rock Prairie Is Favored by the Courts Decision—Local Parties of Prominence Were Interested—Case Was Stubbornly Fought.

Judge J. W. Sale rendered his decision this morning, construing the will of Sarah A. Bell deceased.

The proper construction of the sixth, seventh and residuary clauses of the will was the one sought in the county court.

The sixth clause is as follows:

I give and bequeath to the United Presbyterian church of Rock Prairie, Wisconsin, the sum of one thousand dollars (\$1000.00) to be used as a memorial for Miss Allen Alice Bell, deceased.

The seventh clause is as follows:

I give, grant and bequeath all of my household furniture, wearing apparel, chattels, jewelry and all movables owned by me at the time of my decease, to James B. Hume, to have and hold forever.

The residuary clause is as follows:

All the rest, residue and remainder of my estate, consisting in real estate or the proceeds of the same, I give, grant and bequeath to the United Presbyterian church, for home and foreign missions.

James Oliver, the petitioner, is a nephew of the deceased and he urged that the bequest to the Presbyterian church of Rock Prairie is void for the reason that there is no such organization in existence; and

That a trust was created, and the church could not take property in the capacity of a trustee; and

That if such a trust is valid, that the paragraph of the will in question is void for the reason that such trust is not fully expressed and clearly defined upon the face of the instrument creating it.

He also contended that the words "chattels and movables" in the seventh paragraph of said will do not bequeath to James B. Hume all the personal property of the testatrix, but only articles of the same kind as household furniture, wearing apparel and jewelry.

As to the residuary clause he contended that it void for the same reasons that he urged as to the sixth paragraph of said will; and for the further reason that the power of alienation is perpetually suspended.

James B. Hume, who was before the court in the dual capacity of executor and legatee, claimed all the personal property of the deceased by virtue of the seventh paragraph of the will. The personal property aggregated about seven thousand, five hundred dollars (\$7,500).

The First Scotch Presbyterian church of Rock Prairie, claimed the bequest given by the sixth paragraph of said will to the United Presbyterian church of Rock Prairie, Wisconsin, urging that the misnomer is a latent ambiguity which might be shown by parol evidence. It was admitted that Mrs. Bell had attended and was a member of, the First Scotch Presbyterian church of Rock Prairie for a great many years prior to her death; and that her daughter, Miss Allen Alice Bell, also deceased, had been an active member of the same church during her lifetime. The First Scotch Presbyterian church of Rock Prairie, is popularly known as the United Presbyterian church of Rock Prairie. The Board of Foreign Missions of the United Presbyterian church of North America, and the Board of Home Missions of the United Presbyterian church of North America claimed the residue of the estate of the testatrix which amounts to several thousand dollars as the real estate was inventoried at twelve thousand dollars (\$12,000.00).

In his decision, Judge Sale held the bequest mentioned in the sixth paragraph of said will valid; that she intended to give the money to the First Scotch Presbyterian church of Rock Prairie, Wis., and that there was no question according to the testimony as to her intention.

He decided that the words "chattels and movables" in the seventh paragraph of the will do not include "notes, mortgages or money, but must be restricted to articles similar to household furniture, wearing apparel or jewelry."

He held the residuary clause invalid, stating that it did not create a trust or suspend the power of alienation, but was void for the reason that the subscription of the legatee was too indefinite and uncertain. He stated in this connection that, as shown by the testimony, there are a number of United Presbyterian churches and he could not determine which one should receive the residue for Home and Foreign Missions.

Fethers, Jeffris & Mount appeared for James B. Hume personally; Angie J. King appeared for Mr. Hume as executor; Smith & Pierce appeared for Oscar Laug and Alexander Laug, heirs of the testatrix; E. D. McGowan appeared for James Oliver; and Sutherland & Nolan represented the First Presbyterian church of Rock Prairie, Wisconsin, and the Board of Foreign Missions of the United Presbyterian church of North America, the Board of Home Missions of the United Presbyterian church of North America, and the general assembly of the United Presbyterian church of North America.

"WHAT HAPPENED TO JONES"

Large Audience at Myers' Grand Last Evening.

A large audience was at Myers' Grand last evening, and witnessed the laughable farce comedy "What Happened to Jones." Everyone in the audience fairly laughed themselves hoarse at the many amusing complications into which the young man's unlimited supply of the nerviest kind of nerve led him. At every turn the complications would increase, but at all times and under all circumstances he showed an ability to extricate himself. The entire cast was excellent, and each character was represented by an artist with ability.

## THE VOTE IS HEAVY IN ALL THE WARDS

### FIGURES FROM VARIOUS POLLING PLACES.

The Number of Ballots Placed in the Boxes Up to Three O'clock, This Afternoon Compared With the Number Cast at Previous Elections.

The vote in the city at 3 o'clock this afternoon was as follows:

Election of 1896..... 2731  
Election of 1897..... 2171  
Election of 1898..... 1687  
Election of 1899..... 1897

There is every indication of republican success at today's election. Effective work has been done in all the wards, and the carriages have been kept on the go continually.

The vote recorded at 3 o'clock this afternoon as compared with the vote since 1896, at that hour, was as follows:

	1896	1897	1898	1899
First Ward—				
1st Precinct.....	215	108	118	108
2d Precinct.....	208	271	200	220
Second Ward—				
1st Precinct.....	180	143	112	140
2d Precinct.....	275	221	186	200
Third Ward—				
1st Precinct.....	356	248	178	251
2d Precinct.....	386	208	221	108
Fourth Ward—				
1st Precinct.....	302	270	208	217
2d Precinct.....	357	287	236	272
Fifth Ward—				
One Precinct.....	302	303	229	281
Total.....	2731	2171	1687	1897

The vote today it will be seen, is quite heavy, 1897 votes being cast nearly 800 more than were cast in 1896. The vote was exceptionally heavy in the Fourth and Fifth wards, where especially vigorous work has been done by the republicans.

## CANTILLON ENTERS POLITICAL FIELD

### MAYOR ROSE OF MILWAUKEE FAVORS HIM.

Former Well Known Janesville Boy Will Soon Receive An Appointment Well Worth Having—Worked His Way Up From Brakeman and Is Now Assistant Superintendent.

William D. Cantillon, assistant superintendent of the Chicago & Northwestern road, and a former Janesville boy, who now makes Milwaukee his home, is taking a leading place in Cream City politics. He will probably be the successor of John E. Hanson, the Fire and Police board, when the latter's term expires next July. While Mayor Rose admits that his candidacy is under consideration, he says that it is a long time ahead before the appointment will have to be made, and that he has not yet decided on any man. Mr. Cantillon's friends, however, says that he has practically been assured of the appointment.

Mr. Cantillon is about forty years of age, and is one of the best known railroad men in the state. He was born in Janesville, and at an early age began to do railroad work for the Chicago & Northwestern. He worked as a freight brakeman. Step by step he worked his way up, and eight years ago was appointed general superintendent of the Milwaukee district, which comprises the road from Chicago to Green Bay and from Kenosha to Rockford. Three divisions are included in his jurisdiction, the Milwaukee division, the Air Line and the Kenosha division. In all over 3,000 men are under his supervision.

Mr. Cantillon is regarded as a modest man, but is known in railroad circles as a splendid disciplinarian.

## A Small Beginning Often Makes A Large Ending.

This is more apparent probably in failing sight than most anything else. Your eyes ache a trifle, or the eyelids smart and itch, seems at times as if you could "dig them out," as the saying goes, to get relief. They become irritated, blood shot, etc. You think it a small matter, and will soon pass away. That is just where you make a grave mistake; the sight has become weakened or some of the nerves or muscles have gone back on their customary strength—in fact you have the commencement of an eye trouble, that may become serious, if not attended to at once. This talk is not an idle one—there are many cases about Janesville, of people whose eyes have become permanently weak through neglect at the first sign of trouble.

It is plain to understand, as the eye-sight fails, one must strain or use more power, in fact, over-tax the organs of sight to get perfect vision, and these same organs will not stand the extra work for a long time, something must give way. Glasses merely make up the deficiency when fitted properly. They make the sight natural, and take up the decrease in the power of nerves, muscles, etc.

W. F. Hayes, The Eye Specialist, has won

## WHEEL OF FORTUNE.

They met again, one beautiful July morn, just as Old Sol was showing his cheery countenance over as handsome a bit of scenery as any nature-loving eye would wish to behold.

But for a road, which struck boldly through the wooded depths, almost losing its identity by overhanging bushes and grapevines, the uncommercial traveler who, upon this particular morn, guided his wheel in one of the ruts which appeared clear and distinct among the weedy lane might well have thought that this was the "forest primeval."

Well, like the proverbial lane, this road had a turning, and upon this fact hangs a tale.

Bachelors are seldom sentimental, but George Dearborn, junior partner of the firm of Smart & Dearborn, Boston, took advantage of the respite from the city grind to indulge in thoughts of the grandeur of nature, etc., as he sped silently on toward that fateful turn.

Instantly his wheel was rounding the turn when a startled cry awoke him from his reverie. A vision of loveliness rose before him in the form of a lady cyclist speeding toward him in the same rut. Quickly he turned at right angles to his course, only to be thrown into a mass of vines and brambles ten feet removed from the road bed, while the fair journeyer from the other direction collided with his rear wheel, which caused her to dismount in a not very graceful fashion.

A spell of awkward silence was finally broken by him. "Pardon me, madam; very careless of me, to be sure. You were not injured, I hope?" At the sound of his voice she stopped in the process of arranging her side combs and brushing her natty skirt.

"Leaving quickly forward," she surveyed her fellow unfortunate as he was disentangling himself from his awkward position. "Can it be possible? Why, George—er, Mr. Dearborn, after four years, to meet in this fashion?" As for Dearborn, he was speechless for a moment, and then tried to act as a man of the world should upon meeting the girl who four years before had refused his hand in marriage. The attempt met with little success, however.

"Delighted to see you, Miss Somers," he said, as he took her proffered hand, "but how under the sun—"

"Well, it's just this way," she laughingly replied. "Papa has rented a cottage on the south shore some few miles back. I was extending my usual morning exercise much farther than usual, when—you know the rest. The folks? All quite well, thank you, and as for me, I am as you knew me four years ago, older and wiser, to be sure."

Explaining his presence in such an obscure neighborhood, he added, reminiscently: "I, too, Miss Somers, realize how young and foolish I was then. Let us forget the past and be good friends as before that day when—" Her face crimsoned visibly, and inwardly denouncing himself a blundering idiot for giving the conversation such an uncomfortable turn, he shouldered the wreck of his wheel, and, trundling hers with his, other they began walking toward civilization.

A short walk brought them to a farmhouse, where, having procured a team, they arrived in a little time at her father's house, the conversation meanwhile being on commonplace matters. Having been accorded a hearty welcome, and assured that beyond a slight sprain in her wrist Miss Somers was none the worse for her misadventure, he promised to call at any early date. That night he felt that boyish foolishness that he had so often scoffed at

SHE SURVEYED HER FELLOW UNFORTUNATE.

tearing down the barrier of reserve that he had taken four years to acquire.

Our bachelor friend had called to see the fair invalid for the fifth time in as many days; nothing meanwhile had transpired that served to remind them of their old relations. An unspoken but mutual understanding forbade conversation on so embarrassing a subject. "I am feeling finely," she replied to his query. "What lovely pastimes! How kind of you to cater to one of my chief hobbies. Next to the rose, the pansy occupies, in my mind the chief position in the flowery kingdom."

"And yet," he impulsively exclaimed, suddenly recollecting a long-forgotten incident, "I have a distinct recollection of one night, four years ago last month, when you threw a rose I offered you out of the window, and—" At this point he realizes that he has overstepped the bounds of discretion, and meekly starts to apologize, when, much to his surprise, she smilingly interposes: "What would you say if I should prove to your satisfaction that my regard for roses, even in that aggravated case, was no exception to the general rule?" He wonderingly watches her as she extracts a

locket from her waist, and, opening it, showed to his astonished gaze the withered leaves of what had once been a blushing Jacquemint.

"Supposing," he says, eagerly, after a moment's silence, "that if, after having thrown away and filled with bitterness a heart whose sole desire was you, that if opportunity had offered, would you have resurrected it from its despair as you did the flower?"

"Why, George, of course I should."—Boston Post.

### India's Great Sacred River.

Of the great rivers of India none can compare in sanctity with the Ganges or "Mother Ganga," as she is affectionately called by devout Hindus. From her source in the Himalayas to her mouth in the Bay of Bengal, every foot of her course is holy ground, and many of the other sacred rivers of India borrow their sanctity from a supposed underground connection with her waters. Ganga herself is described as the daughter of the Himalayas, who is persuaded after infinite solicitation to shed her purifying stream upon the earth. At the present day, the six years' pilgrimage from the source of the mouth, and back again, is performed by many. To bathe in the Ganges, especially at great stated festivals, will wash away the stain of sin, and those who have thus purified themselves carry back bottles of the sacred water to their less favored relations. To exclaim "Ganga, Ganga," at the distance of 100 leagues, will atone for sins committed during their previous lives. In British courts of justice the water of the Ganges is used for administering oaths to Hindoos. The tribes of the Neigherry Hills worship rivers under the name of Gammamma. In fact the "divinity of water" is recognized by all the peoples of India.

## WINE OF CARDUI

### A LITTLE DOES MUCH.

Booms, Iowa, Dec. 14.  
No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.  
MRS. GRACE LAMPHERE.

### Wine of Cardui

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles."

## NO INDEMNITY CLAIMS.

Affairs With Rest Until Commission Has Been Appointed.

Washington, April 4.—Many unfounded stories in regard to the situation at Samoa and the intentions of this government and that of Great Britain in connection with the difficulty there are being published.

The latest one is to the effect that the United States and Great Britain would make a demand upon Germany for the loss of the lives of the American and British marines during the fighting in Samoa. No demands have been made and none are in contemplation, and the situation at Samoa will remain in statu quo until the commission has been appointed, has had time to reach the scene of the trouble and has made a report to this government.

The three governments have agreed to the general proposition to adjust matters through the medium of a commission, but none of the details has been agreed upon.

Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise.

There is  
Nothing

That can compare with a fancy worsted fabric for serviceableness for a suit.

Fancy Worsteds are the vogue this spring, but good taste says that the patterns should be quiet in tone.

We would like to have gentlemen who wish to be well clad at small cost see some of the newest

arrivals from the tailor shops of the Stein-Bloch Company, at Rochester, comprising some fifty different patterns in neat plain and broken Stripes, Checks and Over-check Plaids, in various tones of Grays, Browns and Blues, slightly livened up here and there by pickings of red, blue and green.

The shapes of the garments are faultless and the clothes are built ready to put on and sure to fit, almost at a moment's notice.

Prices range from \$15 to \$20 the Suit, according to the fineness of the fabrics and the luxuriousness of the linings.
